

COMMUNITY HEALTH NEEDS ASSESSMENT

In an effort to gauge the overall health needs of the community, St. Andrew's Health Center and St. Andrew's Clinic, in conjunction with UND Center for Rural Health, will be conducting a Community Health Needs Assessment through September 2, 2019.

Results of these surveys will guide the hospitals and clinics on ways to improve the delivery of health care.

Your input is critical. Surveys are available at the above health care agencies as well as online at <http://tinyurl.com/Bottineau2019>
